OBJECTIVE

Passionate **MERN Stack Web Developer** with a knack for building user-friendly, scalable web apps. Eager to grow through real-world projects, sharpen skills, and stay ahead in the ever-evolving tech space. Quick learner, problem solver, and ready to make an impact.

PROJECTS

MERN E-commerce Platform

- Built a scalable e-commerce platform with secure authentication, smooth shopping, and real-time order tracking. Optimized performance using Redis caching and integrated Stripe for secure, seamless transactions.
- TechStack: MERN, Redis, Framer-Motion, Stripe, Cloudinary
- Gained expertise in full-stack development, state management with Zustand, and real-time notifications. Improved database optimization, API security with JWT, and cloud storage integration using Cloudinary. Strengthened problem-solving and performance optimization skills.

Real Time Chat Application

- Developed a real-time chat application with instant messaging, secure authentication, and theme customization, enhancing user engagement and experience. Implemented Socket.IO for seamless real-time communication, ensuring low-latency message delivery. Integrated JWT authentication for security and Cloudinary for media uploads, improving scalability and performance.
- TechStack: MERN, Socket.io, DaisyUI, Cloudinary
- Gained expertise in real-time web sockets with Socket.IO, state management with Zustand, and responsive UI design with Tailwind CSS & DaisyUI. Improved API security, database management with MongoDB, and backend optimization with Express.js. Strengthened problem-solving skills and hands-on experience with full-stack development.
- Visit the project website via the following link: <https://realtime-chat-app-32qw.onrender.com>

Personal Portfolio website

- Developed a modern, responsive portfolio website enhancing online presence, project visibility, and client engagement with a dynamic showcase and real-time contact form. Integrated dark/light themes and optimized performance using Next.js for a seamless multi-device experience.
- TechStack: Next.js, React.js, TailwindCSS, Framer Motion, MongoDB, Mongoose, Nodemailer, Zustand, TypeScript, Vercel
- Strengthened expertise in Next.js, Tailwind CSS, Framer Motion, and MongoDB integration. Gained hands-on experience with Nodemailer, Zod, Zustand, and TypeScript, while enhancing skills in deployment, environment management, and building scalable, modern web applications on Vercel.

EDUCATION

Veer Narmad South Gujarat University, VNSGU

2022 – 2025

Bachelor of Computer Application, CGPA: 7.27

SKILLS

Programming Skills:

- HTML, CSS, JavaScript, TypeScript.

Framework and Tools:

- React JS, Node JS, express JS, Next JS(Beginner), Tailwind CSS, Bootstrap, Docker(Beginner).

Database Management:

- MySQL, MongoDB.

Version Control:

- Git, GitHub.

CERTIFICATION

- Web development course on Udemy
-
