OBJECTIVE

Passionate **MERN Stack Web Developer** with a knack for building user-friendly, scalable web apps. Eager to grow through real-world projects, sharpen skills, and stay ahead in the ever-evolving tech space. Quick learner, problem solver, and ready to make an impact.

PROJECTS

MERN E-commerce Platform

- Built a full-featured e-commerce platform with secure JWT-based authentication, order tracking, and Stripe payment integration. Utilized Zustand for state management and Cloudinary for media handling. Focused on clean UI, API security, and performance optimization.
- Visit the project website via the following link: <https://mern-ecommercestore-jsow.onrender.com>

Real Time Chat Application

- Developed a chat app with secure login, theme customization, and instant messaging using Socket.IO. Applied best practices in API security, MongoDB data handling, and responsive UI design using Tailwind CSS & DaisyUI.
- Visit the project website via the following link: <https://realtime-chat-app-32qw.onrender.com>

Personal Portfolio website

- Created a dynamic, responsive personal portfolio using Next.js, Tailwind CSS, and Framer Motion. Integrated a functional contact form using Nodemailer and enhanced performance with optimized assets and dark/light mode features.
