MySQL , MongoDB

Version Control:

Git , Github

EDUCATION

B.C.A

Veer narmad south gujarat university (VNSGU)

2022-2025

Bachelor of Computer Application

LANGUAGES

English

Hindi

Gujarati

PROFILE

Highly motivated and detail-oriented Full-Stack Web Developer with a strong foundation in the MERN stack. Passionate about developing scalable and user-friendly web applications. Eager to gain hands-on experience through an internship or entry-level opportunity, while continuously improving technical skills and staying updated with the latest industry trends. Quick learner with strong problem-solving abilities dedicated to contributing to real-world projects.

PROJECTS

Ecommerce Store

Tech Stack : MERN , Redis , Framer-Motion , Stripe , Cloudinary

- Impact & Results:** Developed a scalable and fully functional e-commerce platform that enhanced user experience with secure authentication, seamless shopping, and real-time order tracking. Implemented efficient caching with Redis, reducing load times and improving performance. Integrated Stripe for secure payments, ensuring smooth transactions.
- Learnings:** Gained expertise in full-stack development, state management with Zustand, and real-time notifications. Improved database optimization, API security with JWT, and cloud storage integration using Cloudinary. Strengthened problem-solving and performance optimization skills.

Real Time Chat Application

Tech Stack : MERN , Socket.io , DaisyUI , Cloudinary

- Impact & Results:** Developed a real-time chat application with instant messaging, secure authentication, and theme customization, enhancing user engagement and experience. Implemented Socket.IO for seamless real-time communication, ensuring low-latency message delivery. Integrated JWT authentication for security and Cloudinary for media uploads, improving scalability and performance.
- Learnings:** Gained expertise in real-time web sockets with Socket.IO, state management with Zustand, and responsive UI design with Tailwind CSS & DaisyUI. Improved API security, database management with MongoDB, and backend optimization with Express.js. Strengthened problem-solving skills and hands-on experience with full-stack development.
